OBJECTIVE

Detail-oriented Computing (Oil and Gas) graduate from Majan College with a strong academic record (GPA: 4.0) and hands-on experience in SCADA systems, PLC programming, and full-stack web development (C# .NET, Angular). Seeking an internship or entry-level opportunity to apply technical and software development skills in industrial automation, energy, or software engineering environments.

SKILLS AND ABILITIES

- Programming: C# (.NET), JavaScript, SQL (MySQL), Python (basics)
- Web Development: Full-stack development using C# .NET (backend) and Angular (frontend)
- Database Management: Database design and querying using MySQL
- Industrial Automation Tools: PLC programming (Ladder Logic – basics), SCADA systems (IGSS)
- Process Automation Knowledge: Gas leak detection, emergency shutdown systems, instrumentation (sensors, actuators, FF cables)
- Languages: Arabic (Native), English (Fluent)

EXPERIENCE

- Full-Stack Development Training – Codeline by Rihal | Apr 2026 – Present
- Undergoing intensive full-stack development training covering C# .NET for backend development and Angular for frontend development.
- Building hands-on projects applying object-oriented programming, API development, and modern web application architecture.
- SCADA Final Year Project – Majan College | 2024–2025
- Developed a real-time SCADA system for gas leak detection and emergency shutdown using IGSS and PLC Ladder Logic.
- Created visual alarms and automated control mechanisms. Conducted testing and prepared project documentation.

EDUCATION

- Majan University College – Muscat, Oman 2025
- Bachelor of Science in Computing (Oil and Gas) — Graduated 2025
- GPA: 4.00
- Dean’s Honor Certificate recipient in multiple semesters.
- Relevant Coursework: Industrial Automation, SCADA Systems, Database Management, Python Programming

SOFT SKILLS

- Teamwork & Collaboration
- Time Management & Organization
- Attention to Detail
- Critical Thinking
- Fast learner

CERTIFICATIONS

- Dean's Honor Certificate – Awarded in multiple semesters for academic excellence
- AI for Productivity (Applied/Tools Training) – CodeLine Training Institute, Oman | Apr 2026 (Supervised by the Ministry of Higher Education, Research and Innovation)
- Artificial Intelligence (Sep 2025 – Dec 2025) – Samsung Innovation Campus
- Industrial IoT and Control Systems in Energy (Dec 2025 – Feb 2026) – Cisco Networking Academy
- Industrial Automation & SCADA Training Certificate – Majan University College
- Organiser – Majan Research Excellence: IEEE Region 8 Local Student Presentation Contest (Nov 2024) – Majan University College
